

# FT-220 Pressure Bulb

## Overview

The FT-220 is used with the GPSN-100 Gas pressure sensor to measure grip strength

## Photo

FT-220 shown with the tubing.

## Specifications:

<i>Specifications</i>	
Diameter	2 inches
length	4.25 inches

## Operating Instructions:

Connect the FT-220 to the GPSN-100 gas pressure sensor using the tubing provided. Refer to the GPSN-100 tech note for instruction on setting up the GPSN-100. When the FT-220 is squeezed the increase in pressure in the bulb is measured by the gas pressure sensor.
